

ACCESS POLICY FOR RESIDENTIAL USE OF WINTER SAND

The Town of Killington will provide residents sand in the wintertime (“winter sand”) to use on their properties in Killington. The sand is to be used only in the Town of Killington.

To distribute the sand, the Town will create a pile for residents outside the Town Garage gate from approximately November 15 to April 1.

The Town will not load or supply any shovels for the loading of sand. Distribution will be limited to a reasonable amount of sand per trip.

The Highway and Facilities Department will work to replenish the pile as needed, however, the Department’s first priority will be to maintain the roads.

The public is not permitted to enter the Town Garage yard without authorization.

Adopted by the Board of Selectmen this 17th day of September, 2013
