

**TOWN OF KILLINGTON  
PERMIT FOR DRIVEWAY ACCESS ONTO A TOWN HIGHWAY**

Date \_\_\_\_\_ Fee: \$15.00 Paid: \_\_\_\_\_ Tax Map: \_\_\_\_\_ Parcel: \_\_\_\_\_

Permission is requested to perform construction on the right-of-way (ROW) of the public highway known as \_\_\_\_\_ in the Town of Killington for the purpose of obtaining driveway access.

The undersigned agrees that the construction will be accomplished in a manner which does not affect the grade of the highway, obstruct a ditch, culvert or drainage course that drains the highway or divert the flow of water onto the highway ROW unless specifically permitted to do so as noted herein.

The driveway width within the Town ROW shall be no greater than 40 feet nor less than 20 feet. Trees, brush, ledge, and/or embankment shall be cleared on either side of the driveway entrance in order to permit adequate sight distance.

The undersigned further agrees that a 18" culvert minimum, 40 feet minimum length if at all necessary, will be used in the present ditch line, that the driveway to be constructed will enter the Town ROW at an elevation not higher than that of the shoulder of the highway, and that the driveway to be constructed within the ROW shall not exceed 5% grade from the edge of the travelled portion of the road, and the angle that the driveway as it intersects the traveled portion of the road shall be determined by the Selectmen, who in their determination will be guided by safe and practical ingress and egress to the Town highway.

Driveways constructed onto paved highways shall be paved for a minimum of 20 feet from the edge of the road pavement.

Underground services will require a sleeve and markers and will be referenced on a map submitted with the permit or before use of the driveway.

The undersigned further agrees that maintenance of private driveways and culverts is to be and remains forever the responsibility of the driveway owner, per State Statutes. Once installed, it is the owner's responsibility to keep the driveway and culvert free of snow and debris and keep it accessible at all times.

Adequate parking, per the Town of Killington Zoning Ordinance, shall be shown prior to approval of this permit. No parking shall be allowed adjacent to or in the Town ROW.

Please note that this permit is for construction of a driveway access within the Town highway ROW only. Zoning approval, if needed, for all other construction activities, including the driveway on private property, parking, etc., must be obtained separately from the Zoning Administrator.

SUBMIT DESCRIPTION OF CONSTRUCTION TO BE PERFORMED. ATTACH SKETCH OF LOCATION OF DRIVEWAY AS IT INTERSECTS THE TOWN ROW. Driveway access must be staked or flagged for identification within the Town ROW.
